DISTRIBUTION OF STUDIES

<u>Category</u>	<u>Papers</u>
Organizational	1-3
General	4-13
Medical	14-83
Path-Anatomical	84-90
Hematological, Blood-Chemistry	91-103
Reproductive	104-107
Capillaries, Skin	108-111
Autopsy	112
Children	113
Bacteriology, Serology	114-116
Radiation	117-119

ORGANIZATIONAL:

1. Report (shorthanded) of the first general meeting (30 Nov 45)
The Special Committee for the Investigation of the Effects
of the Atomic Bomb
National Research Council of Japan
2. Report (shorthanded) of the second general meeting (28 Feb 46)
The Special Committee for the Investigation of the Effects
of the Atomic Bomb
National Research Council of Japan
3. Preliminary outlines of the results of the investigations
The Special Committee for the Investigation of the Effects
of the Atomic Bomb
National Research Council of Japan

GENERAL:

4. Reports of the inspection of the cave-trenches around the hill
of prison in the city of Nagasaki
URABE, Miyoshi (Surg), OHASHI, Shigeru (Pharm), UEDA, Hideo
(Int Med), HAKAMADA, Saburo (Psych) and NIKAIDO, Soshiro
(Phys Therap)
Faculty of Medicine, Tokyo Imperial University
5. Reports of the inspection of the casualties in the buildings
of Shiroyama Public School at Nagasaki
URABE, Miyoshi (Surg), OHASHI, Shigeru (Pharm), UEDA, Hideo
(Int Med), HAKAMADA, Saburo (Psych) and NIKAIDO, Soshiro
(Phys Therap)
Faculty of Medicine, Tokyo Imperial University
6. Reports of the inspection of the casualties in the buildings
of Fuchi Public School at Nagasaki
URABE, Miyoshi (Surg), OHASHI, Shigeru (Pharm), UEDA, Hideo
(Int Med), HAKAMADA, Saburo (Psych) and NIKAIDO, Sochiro
(Phys Therap)
Faculty of Medicine, Tokyo Imperial University
7. Remarkable facts of the atomized patients at Hiroshima
KUWABARA, Satoru
Surg Clinic (Dr. Otsuki), Faculty of Medicine, Tokyo Imperial
University
8. Contribution to the problem of the causes of deaths of the
atomic bomb victims
KASHIWADO, Teiichi
Oto-Rhino-Laryng Clinic (Dr. Masuda), Faculty of Medicine,
Tokyo Imperial University
9. The human damages by the atomic bomb in a building at 200
meters from the ground center
KITAMOTO, Osamu (med clinic-Dr. Sakaguchi) and ISHIKAWA,
Koichi (surg clinic-Dr. Otsuki)
Faculty of Medicine, Tokyo Imperial University

10. Survey on the human damages in the typical strong constructed buildings at Hiroshima
MURATI, Koiti, and MURAI, Takeo
Institute of the Physical and Chemical Research - Faculty of Medicine,
Tokyo Imperial University
11. Relations between the human damages and substances of the shelters at Hiroshima
MURATI, Koiti, and MURAI, Takeo
Institute of the Physical and Chemical Research - Faculty of Medicine,
Tokyo Imperial University
12. Survey of the radioactive influence by the atomic bomb which was used at Nagasaki, upon the inhabitants in the district of Chijiwa Town
KATSUKI, Shimenosuke (Assistant Professor Int Med) & others
Medical Clinic (Dr. Kusunoki), Faculty of Medicine, Kyushu Imperial University
13. Reports of the inspection of the casualties in the buildings of CHINZEI Middle School at Nagasaki
URABE, Miyoshi (Surg), OHASHI, Shigeru (Pharma), UEDA, Hideo (Int Med), HAKAMADA, Saburo (Psych), and NIKAIDO, Soshiro (Phys Therap)

MEDICAL:

14. Medical report of atomic bombing in Hiroshima Army Medical School and The First Tokyo Army Hospital Japanese Army
15. a) Survey of the atomic bomb at Hiroshima (general aspects)
b) Survey of the atomic bomb at Hiroshima (medical aspects)
KURE Naval Station
Japanese Navy
16. Studies on the biological action of the atomic bomb (the second report)
KURE Naval Station, Medical Department
Japanese Navy
17. Studies on the biological action of the atomic bomb
(the third report)
KURE Naval Station, Medical Department
Japanese Navy
18. Studies on the biological action of the atomic bomb
(the fourth report)
KURE Naval Station, Medical Department
Japanese Navy
19. On cachectic condition of the atomic bomb patients at Nagasaki
URABE, Miyoshi, and MENJO, Matsutoshi
Surg Clinic (Dr. Tsuzuki), Faculty of Medicine, Tokyo Imperial University
20. Gastro-intestinal tract, the TAKATA tests and urine examination of the atomic bomb patients at Nagasaki
KISHIMOTO, Katsumi
Medical Clinic (Dr. Sassa), Faculty of Medicine, Tokyo Imperial University

21. Clinical observations of the atomic bomb patients at Hiroshima
(the first report)
NAKAO, Kiku and others
Medical Clinic (Dr. Sassa), Faculty of Medicine, Tokyo Imperial
University
22. The report of the influence of the atomic bomb explosion on the
ear, nose, and throat. (the 1st, 2nd, 3rd, and 4th reports)
KASHIWADO, Teiichi
Oto-Rhino-Laryng Clinic (Dr. Masuda), Faculty of Medicine,
Tokyo Imperial University
23. Some clinical studies upon the atomic bomb patients at Nagasaki,
in the Omura Naval Hospital
YAMAMURA, Hideo
Surg Clinic (Dr. Otsuki), Faculty of Medicine, Tokyo Imperial
University
24. The investigation of oral disease of the atomic bomb patients at
Hiroshima
AKIYAMA, Taichiro
Dental Clinic (Dr. Kanamori), Faculty of Medicine, Tokyo Imperial
University
25. Stochastic studies on the atomic bomb casualties at Hiroshima.
Comparison of the death rate of male with that of female.
MASUYAMA, Motosaburo, Ph. D.
Faculty of Medicine, Tokyo Imperial University and Institute for
the Statistical and Mathematical Studies, Educational Ministry
26. Stochastic studies on the atomic bomb casualties at Nagasaki.
Death rate date curve
MASUYAMA, Motosaburo, Ph. D.
Faculty of Medicine, Tokyo Imperial University and Institute for the
Statistical and Mathematical Studies, Educational Ministry
27. Stochastic studies on the atomic bomb casualties at Hiroshima.
Death rate date curve
MASUYAMA, Motosaburo, Ph. D.
Faculty of Medicine, Tokyo Imperial University and Institute for
the Statistical and Mathematical Studies, Educational Ministry
28. Stochastic studies on the atomic bomb casualties at Hiroshima.
Death rate distance curve
MASUYAMA, Motosaburo, Ph. D.
Faculty of Medicine, Tokyo Imperial University and Institute for
the Statistical and Mathematical Studies, Educational Ministry
29. Clinical researches of ocular affections caused by atomic bomb
explosion at Hiroshima
SHOJI, Yoshiharu (Prof. Ophth) and FUKUOKA, Tsunemasa, NITTA,
Tadashi
Ophth Clinic (Dr. Shoji), Faculty of Medicine, Tokyo Imperial
University

30. On the brains of the atomic bomb victims
OKADA, Keizo, SHIMAZONO, Yasuo, and NAKAMADA, Saburo
Psychiatric Clinic (Dr. Uchimura), Faculty of Medicine, Tokyo
Imperial University.
31. Atomic bomb effects and tuberculosis of the chest
KITAMOTO, Osamu, AYUKAWA, Sensai, and others
Medical Clinic (Dr. Sakaguchi), Faculty of Medicine, Tokyo Imperial
University
32. Some statistics of fevers, fatigue feelings and complications of the
radiation sickness
KITAMOTO, Osamu and others
Medical Clinic (Dr. Sakaguchi), Faculty of Medicine, Tokyo Imperial
University
33. On the fever of the atomic bomb patients at Hiroshima
KUBO, Ikuya and KITAMOTO, Osamu
Medical Clinic (Dr. Sakaguchi), Faculty of Medicine, Tokyo
Imperial University
34. Disturbances of the function of liver of the atomic bomb patients
FUKUDA, Tamotsu (Ass't Prof of Surgery) and WATANABE, Toshie
Surg Dept, the Branch Hospital, Faculty of Medicine, Tokyo
Imperial University
35. Disturbances of the function of liver and capillary of the atomic
bomb patients
KOBAYASHI, Tachio and others
Medical Clinic (Dr. Sassa), Faculty of Medicine, Tokyo Imperial
University
36. The clinical investigation of the atomic bomb disease
SAWADA, Toichiro (Prof Int Med) and others
Medical Clinic (Dr. Sawada), Faculty of Medicine, Kyushu Imperial
University
37. Report of the investigation of the atomic bomb casualties at
Hiroshima, surveyed in October and November, 1945
Medical Parties, Tokyo Imperial University
Faculty of Medicine, Tokyo Imperial University
38. Timely distribution of the symptoms of radiation sickness at
Nagasaki and the blood pictures after the second month
UEDA, Hideo (Med Clinic-Dr. Sassa) and NIKAIDO, Soshiro
(Institute of the Med Physical Therapy)
Faculty of Medicine, Tokyo Imperial University
39. Contribution to the cachectic condition of the atomic bomb
patients at Nagasaki
URABE, Miyoshi and MENJO, Matsutochi
Surg Clinic (Dr. Tsuzuki), Faculty of Medicine, Tokyo Imperial
University

40. Change of the gastric intestinal organ by the atomic bomb injury
KOGA, Hideo (Ass't Prof Surg) and others
Surg Clinic (Dr. Tomoda), Faculty of Medicine, Kyushu Imperial
University
41. On the lesion of the pharynx and the larynx by atomic bomb
SASAKI, Minoru (Prof. Oto-R-Laryng) and others
Oto-Rhino-Laryngological Clinic, Faculty of Medicine, Kyushu
Imperial University
42. The injuries of the eyes by the atomic bomb (clinical observation).
TAMURA, Shigemi (Prof. Ophth), and others
Ophth Clinic, Faculty of Medicine, Kyushu Imperial University
43. On the atomic injury and the function of liver
KIRAO, Kenichi (Ass't Prof. Surg)
Surg Clinic (Dr. Ishiyama), Faculty of Medicine, Kyushu Imperial
University
44. Case reports on the atomic bomb patients at Hiroshima and Nagasaki
Pediatric Clinic
Kyoto Prefectural Medical College
45. Report on the atomic bomb patients
KURUSU, Masao
Surg Clinic (Dr. Mochizuki), Kyoto Prefectural Medical College
46. Report on the atomic bomb patients at Nagasaki
KANEDA, Sakisuke (Ass't Prof. Radiol)
Department of Radiology, Kumamoto Medical College
47. On the late radiation sickness, caused by the atomic bomb
YAMAZAKI, Shunzo (Prof. Oto-R-Laryng)
Oto-Rhino-Laryngological Clinic, Osaka Medical School
48. On the injured patients by the atomic bomb
SAITO, Makoto (Prof. Surg)
Surg Clinic (Dr. Saito), Faculty of Medicine, Nagoya Imperial
University
49. Oto-rhino-laryngological findings by the atomic bomb effect
TAKAHARA, Takazo (Prof Oto-R-Laryng)
Oto-Rhino-Laryngological Clinic, Osaka Womens Medical School
50. Report of the atomic bomb cases (Summary)
OZAWA, Masaji (Prof. Int Med)
Medical Clinic, Yamaguchi Medical School
51. My experience of the "atomic bomb disease"
MONDEN, Yoshinobu, Student
Yamaguchi Medical School
52. The effects of the atomic bomb on the human beings at Hiroshima
FUJII, Minoru and others
Hiroshima Sanatorium, Saijo, Hiroshima Prefecture

53. Survey of the members of the railroad service at Hiroshima
MATSUFUJI, Gen and others
Laboratory for the scientific research of physical and labour
affairs, Railroad Bureau, Ministry of Communication
54. Report on the medical studies of the effects of the atomic bomb
(one part of the provisional official report of the Medical
Section, Special Committee, National Research Council of Japan)
TSUZUKI, Masao (Prof. Surg)
Surg Clinic (Dr. Tsuzuki), Faculty of Medicine, Tokyo Imperial
University
55. Case reports of the atomic bomb patients
OKUTANI, Hiromitsu
Moji Railroad Hospital
56. Clinical research for the atomic bomb injury, with special reference
to the functional disturbance of the adrenal glands, the liver,
and the cause of the blister-formation on the skin (preliminary report)
INOUE, Katashi (Prof. Int Med) and others
Medical Clinic (Dr. Inoue), Faculty of Medicine, Kyoto Imperial Univ.
57. Case reports of the atomic bomb disease
HOSHI, Jiro
Kawakita Hospital, Tokyo
58. Case reports on patients caused by atom bomb, Part 1.
NAKAGAWA, Kiyoshi (Prof. Derm)
Dermato-urological Clinic, Kyoto Prefectural Medical College
59. Report of the physical examination of the members of the railroad
service at Nagasaki
YOSHIMURA, Saburo and others
Nagasaki Administration Bureau, Railroad Bureau and Moji Railroad
Hospital
60. Distribution of the symptoms of the atomic bomb patients at Nagasaki
OHASHI, Shigeru (Pharma), URABE, Miyoshi (Surg), UEDA, Hideo (Int Med),
HAKAMADA, Saburo (Psychiat) and NIKAIDO, Soshiro (Phys Therapy)
Faculty of Medicine, Tokyo Imperial University
61. The research on atomic bomb victims, with 26 tables
KUSUNOKI, Goroo (Prof. Int Med)
Med Clinic (Dr. Kusunoki), Faculty of Med, Kyushu Imperial Univ.
62. The report of hygienic investigation with regard to the continuous
actions of damage in consequence of the atomic bombing at Nagasaki
OTSUBO, Kiyomi (Prof. Hyg) and ISHIZAWA, Shoichi
Institute of Hygiene, Faculty of Medicine, Kyushu Imperial University
63. Clinical Observation of the atomic bomb disease
MISAO, Tando (Prof. Int Med) and others
Medical Clinic (Dr. Misao), Kyushu Imperial University

64. Investigation of injuring effect upon the human body by the explosion of atomic bomb at Nagasaki City
NAKAJIMA, Ryotei (Prof. of Radiology), ISHIKAWA, Kazuo (Ass't Prof.) and others
Department of Radiology (Dr. Nakajima), Faculty of Medicine, Kyushu Imperial University
65. Medical effect of atomic bomb
FUSE, Nobuyoshi (Prof. Int Med)
Medical Clinic (Dr. Fuse), Faculty of Med, Osaka Imperial University
66. The relation between flash burn and radiation sickness by the atomic bomb
YASUOKA, Shizo and TOMIHARA, Masakazu
Physical Therapy Dept. (Dr. Nagahashi), Faculty of Medicine, Osaka Imperial University
67. Report on the atomic bomb thrown on Hiroshima
ASADA, Tsunesaburo (Prof. Physics) and others
Department of Physics, Faculty of Science, Osaka Imperial University
68. Data of the statistical surveys of the casualties by the atomic bomb at Nagasaki
SHIRABE, Raisuke (Prof. Surg)
Surg Clinic (Dr. Shirabe), Nagasaki Medical College
69. The situation of peoples in Nagasaki Medical College on the 9th August 1945
KOYANO, Kohei, Dean of the Nagasaki Medical College
Nagasaki Medical College
70. Liver function tests on the atomic bomb patients at Nagasaki (Santonin acid sodium load tests and Takata-Ara tests)
OKURA, Ichiro
Medical Clinic (Dr. Tsuno), Nagasaki Medical College
71. Santonin test on the liver function of the atomic bomb patients at Nagasaki
OKURA, Ichiro
Medical Clinic (Dr. Tsuno), Nagasaki Medical College
72. Memoranda on the self-experience of the atomic bombing as a medical man
Members of the Nagasaki Medical College
Nagasaki Medical College
73. Survey of the radioactive influence caused by the atomic bomb which was used at Nagasaki, upon the inhabitants in the city of Shimabara
OSAJIMA, Shiro (Ass't Prof. Int Med) and KO, Eicho
Medical Clinic (Dr. Tsuno), Nagasaki Medical College
74. Clinic of the so-called radiation sickness, surveyed at Nagasaki
KIKUCHI, Takehiko (Prof. Int Med)
Medical Clinic (Dr. Kikuchi), Faculty of Medicine, Kyoto Imperial University

75. On the cerebrospinal fluid of the atomic bomb patients
NAITO, Yukio
Medical Clinic (Dr. Mashimo-Dr. Mayekawa), Faculty of Medicine,
Kyoto Imperial University
76. Electrocardiograms of the atomic bomb patients
SHIMIZU, Saburo and others
Medical Clinic (Dr. Mashimo-Dr. Mayekawa), Faculty of Medicine,
Kyoto Imperial University
77. Report on the atomic bomb effect at Nagasaki
Pathological Institute
Faculty of Medicine, Kyoto Imperial University
78. Oral findings of the atomic bomb patients
MINOGUCHI, Izuru
Faculty of Medicine, Kyoto Imperial University
79. A preliminary report on the disaster in Hiroshima City caused by the
atomic bomb
Research Commission of the Kyoto Imperial University
Kyoto Imperial University
80. Clinic of the so-called radiation sickness, surveyed at Hiroshima
KIKUCHI, Takehiko (Prof. Int Med)
Medical Clinic (Dr. Kikuchi), Faculty of Medicine, Kyoto Imperial
University
81. Preliminary report of the damages on structures due to the atomic bomb
KONDO, Yasuo (Prof Civil Eng)
Civil Engineering Department, Faculty of Engineering, Kyoto Imperial
University
82. On the influence of the atomic bomb in Hiroshima on August 6, 1945
IMAMURA, Shun-ichiro (Ass't Prof. Applied Botany), FUJITA,
Tetsuo (Prof. Botany, Hiroshima Higher Normal School)
Faculty of Science, Kyoto Imperial University
83. Surveys on malnutrition of the atomic bomb patients at Hiroshima
KUEO, Ikuya
Medical Clinic (Dr. Sakaguchi), Faculty of Medicine, Tokyo Imperial
University

PATH-ANATOMICAL:

84. Path-anatomical Studies on 34 atomic bomb cases at the city of Hiroshima
and Nagasaki (The first report)
MIYAKE, Masashi (Ass't Prof. Path)
Pathological Institute, Faculty of Medicine, Tokyo Imperial University
85. Preliminary report on the path-anatomical studies of the atomic bomb
cases in the city of Hiroshima
MIYAKE, Masashi (Ass't Prof. Path)
Pathological Institute, Faculty of Medicine, Tokyo Imperial University

86. Clinical and path-anatomical studies on the scar tissues after the atomic bomb burns
KAJITANI, Tamaki and ISHIBASHI, Yukio
Surg Clinic (Dr. Tsuzuki), Faculty of Medicine, Tokyo Imperial University
87. Report of the path-anatomical studies on the subacute atomic bomb cases at Nagasaki
YAMORI, Takeo (Prof Path)
Pathological Institute, Yamaguchi Medical School
88. Influence of atomic bomb upon the growing zone of the bone
KINNAKA, Seiichi (Prof. Orthop Surg) and others
Orthopedic Clinic (Dr. Kinnaka), Faculty of Medicine, Kyushu Imperial University
89. Additional report on the pathologic anatomic changes in the atomic bomb disease
ONO, Kosaku (Prof. Path), IMAI, Tamaki and others
Pathological Institute, Faculty of Medicine, Kyushu Imperial University
90. On the pathologic anatomic changes in the atomic bomb disease
ONO, Kosaku (Prof. Path), IMAI, Tamaki and others
Pathological Institute, Faculty of Medicine, Kyushu Imperial University

HEMATOLOGICAL - BLOOD-CHEMISTRY:

91. Attitude of the eosinophile cells in the blood and bone marrow of the patients at Nagasaki, in the 3rd and 4th months
UEDA, Hideo (Med Clinic-Dr. Sassa) and NIKAIDO, Soshiro (Dept of Med Phys Therapy - Dr. Misawa)
Faculty of Medicine, Tokyo Imperial University
92. Chloride content of blood of the atomic bomb patients in Omura Naval Hospital
HINO, Sadao
Medical Clinic (Dr. Sassa), Faculty of Medicine, Tokyo Imperial University
93. Statistical observation of the peripheral blood pictures of the atomic bomb patients in the 3rd and 4th months
NAKAO, Kiku, OKOSHI, Masacki, KAKEHI, Koki, TSUKADA, Toru, KATO, Shuichi, and KAWAMURA, Motoi
Medical Clinic, Faculty of Medicine, Tokyo Imperial University
94. Hematological study on the atomic bomb-disease
NAKAO, Kiku, KOBAYASHI, Tachio and others
Medical Clinic (Dr. Sassa), Faculty of Medicine, Tokyo Imperial University
95. Report of the atomic bomb patients at Hiroshima (The first report), blood protein and sperma
ASAKURA, Takeshi
Surg Clinic (Dr. Otsuki), Faculty of Medicine, Tokyo Imperial University

96. Report of the atomic bomb patients at Hiroshima (The second report),
sperma pictures and blood pictures in the 6th month
ASAKURA, Takeshi
Surg Clinic (Dr. Otsuki), Faculty of Medicine, Tokyo Imperial University
97. Atomic bomb effect on white blood corpuscles
NISHIMARU, Kazuyoshi and others
Jikei Service Corporation, Tokyo and Shohara - machi Red Cross Hospital,
Hiroshima Prefecture
98. On the biochemical and physicochemical changes of the blood of the
atomic bomb patients
FUNAOKA, Shogo (Prof. Anat) and others
Anatomical Institute, Faculty of Medicine, Kyoto Imperial University
99. On some chemical constituents of the blood of the atomic
bomb patients (a provisional report)
HIROHATA, Ryoza (Prof. Biochem) and others
Institute of Biochemistry, Faculty of Medicine, Kyushu Imperial
University
100. Study of the sternal punctate of the radiation disease (Preliminary
report - abstract)
MASUYA, Tomiichi
Medical Clinic (Dr. Sawada), Faculty of Medicine, Kyushu Imperial
University
101. On a case of monocyte leukemia, occurred after the "atomic bomb
disease"
MISAO, Tando (Prof. Int Med), HARADA, Yoshimichi and HATTORI,
Junichi
Medical Clinic (Dr. Misao), Faculty of Medicine, Kyushu Imperial
University
102. The picture of blood and bone marrow of the patients injured by
atomic bomb
FUKUSHIMA, Kanshi (Prof. Int Med)
Medical Clinic (Dr. Fukushima), Faculty of Medicine, Osaka Imperial
University
103. Hematological observations on 3 patients injured by the atomic bomb,
"about the regenerative blood pictures and the influence of the
blood transfusion upon them"
TSUDA, Yasushi and ADACHI, Susumu
Surg Clinic (Dr. Aoyagi), Faculty of Medicine, Kyoto Imperial
University

REPRODUCTIVE:

104. Influence of the atomic bomb upon the sexual function of the females
(an intermediate report)
MITANI, Yasushi (Ass't Prof. Gynecol & Obstetrics) & ITO, Mitsuo
Gynecol & Obst Clinic (Dr. Shiraki), Faculty of Med, Tokyo Imperial
University

105. Atomic bomb influence upon human sperma
SIMIZ, Kentaro (Ass't Prof. Surg)
Surg Clinic (Dr. Otsuki), Faculty of Medicine, Tokyo Imperial
University
106. Relation between the atomic bomb effects and menstruation
HATANAKA, Toshiro
Moji Railroad Hospital
107. On the sperma of the atomic bomb patients at Hiroshima
OKOSHI, Masaaki (Urology), ASAKURA, Takeshi (Surg) and
KASEKI, Tatsuo (Gynecology)

CAPILLARIES - SKIN:

108. Resistance of the skin capillaries and their micrograms of the
atomic bomb patients at Hiroshima
AYUKAWA, Sensai and others
Medical Clinic (Dr. Sakaguchi), Faculty of Medicine, Tokyo Imperial
University
109. Dermatological view on the lesions through the atomic bomb explosion
MINAMI, Shogo (Prof. Derm) and others
Dermatological Clinic, Faculty of Medicine, Kyushu Imperial
University
110. Shortening of the resorption time of a pumphus of the skin of the
atomic bomb patients
ICHINOSE, Kengo (Ass't Prof. Derm) and others
Dermatological Clinic (Dr. Kitamura), Nagasaki Medical College
111. Studies on the skin capillaries of the atomic bomb patients
TOMITA, Ken-nosuke and others
Medical Clinic (Dr. Mashimo-Dr. Mayekawa), Faculty of Medicine,
Kyoto Imperial University

AUTOPSY:

112. Autopsy records of 28 atomic bomb cases at Hiroshima
MIYAKE, Masashi (Ass't Prof. Path) and others
Pathological Institute, Faculty of Medicine, Tokyo Imperial
University

CHILDREN:

113. Atomic bomb disease in the childhood
ENJOHJI, Munenori (Prof. Pediatrics) and others
Pediatric Clinic, Faculty of Med, Kyushu Imperial University

BACTERIOLOGY - SEROLOGY:

114. The bacteriological and serological researches for diarrhea of
atomic bomb disease
ENJOHJI, Munenori (Prof. Pediatrics) and others
Pediatric Clinic, Faculty of Medicine, Kyushu Imperial University

115. Active SH-base of serum protein of the atomic bomb patients
HAMAMOTO, Eiji, and YAMANOUCHI, Itsuro
Pediatric Clinic, Okayama Medical College
116. Bacteriological researches on the serum of patients who were
injured by the atomic bomb at Nagasaki
KIMURA, Ren (Prof. Microbiology) and others
Microbiological Institute, Faculty of Medicine, Kyoto Imperial
University

RADIATION:

117. Radioactivity of the ground at Nagasaki and its neighborhood
SHINOHARA, Kenichi (Prof. Physics) and 5 others
Department of Physics, Faculty of Science, Kyushu Imperial
University
118. Researches on the radioactivity at Hiroshima
ITO, Junkichi (Prof. Physics) and others
Department of Physics, Faculty of Science, Osaka Imperial
University
119. The field observation at Hiroshima on the radioactivity induced
by atomic bomb
ARAKATSU, Bunsaku (Prof. Nuclear Physics) and others
Institute of Nuclear Physics, Faculty of Science, Kyoto
Imperial University
